2012 to 2017

Munchery

San Francisco, CA

Designer: Employee #4, I saw the company grow to 1,000 people. As Munchery's first designer, I owned their production needs. I designed their marketing ads, direct mailers, and recipe cards. Organized, quick, and on time. Worked closely and happily with the project manager and marketing team.

Email Engineer: Munchery's Email Ninja. I designed and programmed all of Munchery's HTML emails: transaction emails, promotional blasts, daily menu, and lifecycle flows. Emails were beautiful, responsive, and with the latest code standards.

2007 to 2012

Restaurant Experience:
Munchery Chef
Gather Line Cook
Chez Panisse Intern
